

STATEMENT OF PURPOSE

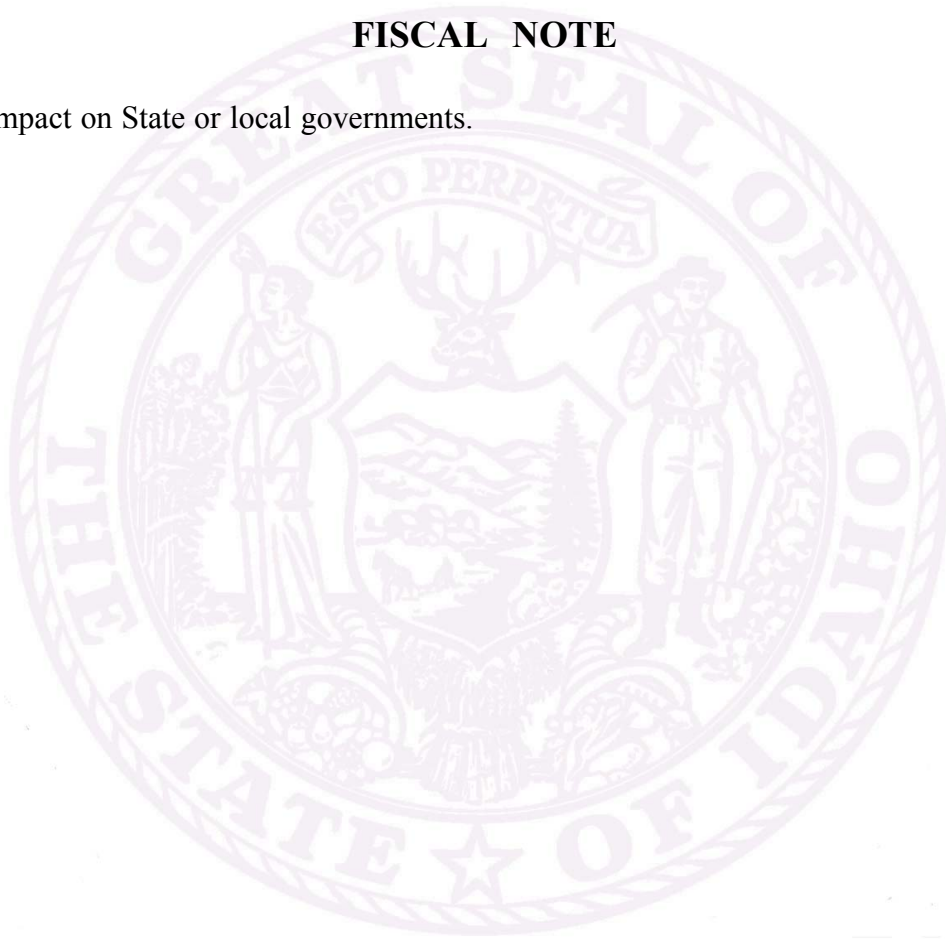

RS20481

This act would add to Idaho Code 40-203 (2) a paragraph to clarify the rights of a property owner in the case of abandonment of a county road under 40-203. It states that the property owner has a right of continued access on the abandoned right-of-way in the manner they previously used the access.

This would assure that in the event of county or highway district abandonment of a road or right of way that property owners would not become "landlocked" with regards to access to their property.

FISCAL NOTE

No fiscal impact on State or local governments.
